

## PERSONNEL REPORT TO SESSION

The Personnel Committee met on Tuesday, April 11. There are no action items at this time. The committee continues to discuss hiring permanent staffing for the Children's and Youth programs and has approached each of those committees for input about how to best serve those components of our congregation. We also asked each group to identify folks to help with recruiting and hiring. We will also approach Session for representatives of that body as well. Other staffing vacancies were discussed and the committee is reviewing job descriptions and considering how best to get that work accomplished. The personnel budget is favorable at this time due to unfilled vacancies.
