"SHARING HOPE FROM THE HEART OF THE HIGHLANDS"

FEBRUARY 2024

A special invitation to our Ash Wednesday service this year!

You might think of February 14th as the day love. But this year, it's also the day we contemplate our mortality because Ash Wednesday will fall on Valentine's Day. We hope that you all will join us for a very special Ash Wednesday service to be held in Fellowship Hall on Wednesday, February 14th, at 6:00 pm.

This service will be a little less formal and at times discussion-based. It will include lots of visual images as we will be learning the practice of Visio Divina. Throughout all of Lent we will be exploring different spiritual practices and Ash Wednesday will kick this off by teaching us the spiritual practice of connecting with the divine through image. Visio Divina, Latin for "divine seeing," is a method of meditation, reflection, and prayer through a process of intentional seeing. One of the images we will be looking at with this intention is attached here. It's called *Gather Us In* by Lisle Gwynn Garrity. What catches your eye as you look over this image? What questions arise in you and what does it make you think about?

At the end of the service, each family with children will be able to take home a set of Activity Eggs. Each egg carton has twelve eggs that your family can open together throughout the seasons of Lent, Holy Week, and Easter. There's one egg for each Sunday in Lent; one egg each for Ash Wednesday, Palm Sunday, Maundy Thursday, Good Friday, Easter Vigil (Easter Saturday), and Easter Day. And there's one last egg to launch you into the season of Easter.

Each egg has a unique item that corresponds with an activity. These family activities will focus on prayer. It could be a fun Lenten practice to set up a prayer area in your home where you can gather each week of Lent. Treasure hunts are so much fun for kids! Hide each egg and send your kids on a hunt for it. When they find the egg, gather in your prayer area to do the activity and pray together. We hope that this will be a fun way to gather together as a family and prepare for the Easter season.

Session Summary

Report from the January 2024 Session Meeting

The Session approved the recommendation that the congregation approve July 1 as the annual changeover date for classes of elders and deacons. Current elders and deacons would serve an extra few months (May through June) to facilitate this schedule change.

From Finance: The Session adopted the 2024 operating budget.

Update on HPI

At lunch in January, Housing Partnership, Inc. (HPI), a leading organization in the effort to build, renovate and sell affordable homes targeted particularly to Black home ownership in West Louisville, reported on the progress being made with the significant help of Highland's 2021 loan of \$500,000. Using Highland's funds, which helped to attract additional financing, sixty single family homes were renovated. All but one have already been sold. The returned funds will be used for a new thirty-six home project. Home buyers are supported by HPI with housing counselors and classes in credit and finance. A home is more than a place to live; owning a home provides stability for children attending school, parents holding jobs and families building equity explained Patrick Cornett, EVP and Chief Financial Officer of HPI.

Mission and Service

Dare to Care Mobile Food Pantries: We give great thanks for our ongoing relationships with our Dare to Care Food Pantries! We help Dare to Care provide volunteers for two separate food pantries each month. Portland Avenue Community Trust is located at 2508 Portland Ave and Grace Hope (Smoketown) is located at 702 E Breckinridge St. This month, the food pantries will take place on Tuesday, February 6

(Portland) at 9:45 am and Tuesday, February 20 (Smoketown) at 1:30 pm. This is a wonderful volunteer opportunity because you only have to give an hour to make a big difference in someone's life. As a volunteer, you will be handing out the food that Dare to Care provides. It's a wonderful way to get to know people in other parts of town and provide a service that is greatly needed.

Nursery and Weekday School

The Nursery and Weekday School is in full swing, no matter the weather! Outdoor play happens daily for the children who love to explore our natural world in every season. January brought us bitter cold and moderate days, too, and we made the most of them all!

If there's one thing that young children teach us every day it's how to PLAY! They don't require expensive toys or materials, but are able to find fun and learning with just about anything. We love to provide children with "loose parts," or collections of items that have no prescribed use, and observe how the children use them. We have been offering the children collections of shiny

objects

including costume jewelry, wire and ornaments and observing their play. They are endlessly curious, observing each object from every angle. Additionally, we have been creating paper from recycled paper which has been torn into small pieces then ground to a pulp in a blender with water. The children scoop the paper pulp onto screens, press out the water, then let the new paper dry. It's a process that the children find fascinating. We adults take great inspiration from the ingenuity of the children and their ability to find joy and beauty no matter the materials before them.

Though the application deadline for the 2024-2025 school year has passed, we have a few remaining openings; if you have friends or relations who might be interested in a school for their little ones (infants - kindergarten), have them give us a call at 456-6991 or check out our website: hpcweekdayschool.org.

We are always happy to share our school with new friends!

Greetings from your Youth APNC!

We have been busy doing second interviews with great candidates as well as assessing new applications coming in. We met this week to recap, as we had a break in interviews and had a chance to catch our breath and re-assess where we are and create a timeline for the next few months. We are planning to offer face-to-face interviews to three final candidates and have discussed that due to the strength of our current candidates, we feel like we are in a great place. We are currently starting to contact references for those final three. We are still looking at new applications at this point but unless they are equally strong candidates we are not going to be offering them interviews. We will still be gathering information and can open the process as needed. We are excited to meet the candidates we have been getting to know, spend time face-to-face with them, and show them our amazing youth program and HPC!

Environmental Stewardship

2023 saw air-source heat pump information explode. It's now possible to buy all sorts of heat pump appliances that you may never have thought of – a heat pump dryer (it uses a 120 outlet and needs no vent) comes to mind. Or an EV heated and cooled with a heat pump. It's easy to think that a replacement boiler couldn't possibly be an air-source heat pump, but you'd be wrong. They exist. They're effective and efficient. One company is now developing a U-shaped heat pump that drops into a window opening leaving almost the full window view intact. More products seem to pop up each month. Best of all they work better than ever and typically provide tax credits. When replacement time comes explore the amazing air-source heat pump options.
